

Nebraska Gasoline and Diesel Prices

The state average retail price of gasoline increased 4 cents from last week to \$1.98. Regional and national gasoline stocks remain tight. The state average retail diesel price jumped another 4 cents to \$2.09 per gallon reflecting the rise in crude oil prices and pressure from strong demand and high spot prices for heating oil. Midwest diesel fuel inventories are in the normal range for this time of year although regional and national inventories are tight.
