

Nebraska Gasoline and Diesel Prices

Nebraska's retail gasoline price fell another penny from last week to \$1.93. Metro prices ranged from \$1.88 in Columbus to \$1.95 in Grand Island and North Platte. The Midwest gasoline stock level remains above the normal range. The good news is that, with supplies at this level, there are fewer concerns this year about shortages of gasoline than there were in the past.

The state average retail diesel price also fell another penny from last week to \$2.03 per gallon. Nebraska's metro diesel prices ranged from \$1.98 in North Platte to \$2.06 in Kearney. The Midwest distillate fuel inventory level continues in the normal range.
