

Annual Average Electricity Price Comparison by State

Nebraska is the only state that generates electricity entirely by publicly-owned power systems. As of 2000, the statewide average price for all sectors from all electric utilities is the tenth-lowest rate in the country, based on the latest federal figures. Nationally, electricity costs 28 percent more than it does in Nebraska. Across all sectors, Hawaii has the highest electricity rate (14 cents), and Idaho has the lowest electricity rate (4.17 cents).
