

### States Shipping Coal to Nebraska in 2010

Numbers for 2010 show that 99 percent of the coal transported to Nebraska for electricity generation and industrial plants came from Wyoming. The majority of the coal supply for the state was imported domestically by railroad. A small amount (13 thousand short tons) was brought to Nebraska by truck from Wyoming. All of the coal was [subbituminous](#).

**Coal Shipped into Nebraska by State of Origin, 1989 – 2010  
(Thousand Short Tons)**

Year	Colorado	Indiana	Kentucky	Montana	New Mexico	Pennsylvania	Utah	West Virginia	Wyoming	Totals
1989	159	3		109					7,465	7,736
1990	60			131		1			7,950	8,142
1991	59			150		4			8,583	8,796
1992	67			142		2			7,882	8,093
