

## Average Wholesale Propane Prices in Nebraska

### Analysis

The average wholesale propane price had dropped 8 cents from the last report to \$1.15 per gallon on March 19, 2012 (see the [table](#) at the end of this report). The [graph](#) below shows the spread in Nebraska prices from month to month and from this year compared to previous years.

Other [states](#) in the Midwest Region had comparable wholesale prices ranging from \$1.11 to \$1.39 per gallon with the region averaging \$1.19. States adjacent to Nebraska, such as Kansas, South Dakota, Iowa, and Missouri, had prices of \$1.13, \$1.17, \$1.16, and \$1.15, respectively.

With 16.6 million barrels of supply on March 16, the Midwest Region inventory level was above the normal range for this time of year.

Notes: The [annual report](#) for the 2010–2011 winter season is available. An [archive](#) houses annual reports from previous years.

### Heating Season

The Oil Price Information Service collects wholesale propane prices each week for Nebraska and eleven (11) other states in the Midwest Region during the heating season (October to March). The [Energy Information Administration](#), the independent statistical and analytical agency within the U.S. Department of Energy, uses the prices collected by the Oil Price Information Service to calculate a state average price, a regional average price, and a national average price which can be seen in the report [Wholesale Propane Prices by Region and State](#).

### Off Season

Prices are not collected during the off season (April through September).

### Midwest Region

For statistical purposes, the Energy Information Administration defines the [Midwest Region](#) to include the states of Iowa, Illinois, Indiana, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, and Wisconsin.
